Sprint 1 Report
SportsFinder
Sprint 1 Completion - 1/28/25

The sprint report must contain the following elements:

• **Actions to stop doing:** The biggest thing that we need to fix as a team is be more punctual. All of us are often late to Scrum meetings and meetings with our TA. Other than that, there aren't any major things that we need to stop doing.

• **Actions to start doing:** N/A**.** There isn't anything that we need to start doing, at least for now.

• **Actions to keep doing:** We often meet outside scrum meetings when we are behind on our work as a team. This is very beneficial as we get a lot of important work done that may be delayed if we wait for the scrum meetings. We also sometimes do group work where we figure certain things out together. I definitely think this is a good practice that has been working so far.

● **Work completed:** We completed both the backend and frontend of the user stories but we were not able to connect them. Due to that, the user stories were not fully completed by the end of Sprint 1.

● **Work not completed:**
  ● "As a user, I want to join the application and share information about myself so I can have a personalized experience."
  ● "As a user, I want to log into the app with my account information so I can have my preferences saved. "

• **Work completion rate:**

All user stories are completed.

Total number of estimated work hours needed to complete sprint: **50 hours**

Total number of days during the sprint: **14 days**

  ● **"As a user, I want to join the application and share information about myself so I can have a personalized experience."** - **20 hours**
    ○ Estimated it would take 22 hours to complete

- ○ Story Points: 4
- ● **"As a user, I want to log into the app with my account information so I can have my preferences saved. " - 30 hours**
  - ○ Estimated it would take 15 hours to complete
  - ○ Story Points: 4
